Cal OES SOUTHERN REGION

Pipeline P00547 Incident 10.02.21

The California State Warning Center (CSWC) was notified of a leak from a 16" pipeline which spilled oil into the Pacific Ocean. The leak started at 0230 hours. Cal OES Ports and Harbor states that Platform Elly is still active.

- Cal OES Fire initial reports 3,500+ barrels (approximately 144,000 gallons) of crude oil has spilled into the water.
- The pipeline has been shut off however the spill is not contained.
- Cal OES Maritime has reported the oil reached the shoreline in Huntington Beach, near 1700 hours.
- Incident remains in Unified Command with USCG, CDFW/OSPR, and Beta Offshore Cooperation
- First IAP will be published tomorrow morning
- The Incident will be holding Cooperator's Meetings starting today to share information with cooperating and assisting agencies
- An incident was created in Cal EOC today for this event
 - 2021-10-02 Pipeline P00547 - Southern California
- Orange County Operational Area Updates
 - The OA held a Cooperator's Meeting today to touch base with their affected local jurisdictions
 - The Great Pacific Air Show was cancelled due to the spill
 - Per OC, Huntington Beach has been in communication with Seal Beach and Naval Weapons Seal Beach
 - OC Health Care Agency Haz Mat Supervisor on scene to advise on beach closures and environmental impacts
 - City of Huntington Beach ICP has transitioned from the air show to the spill response
- The Incident Command Post (ICP) is coordinating with the Orange County EOC to ensure proper information flow
 - OC has an Emergency Management representative at the ICP
- ICP location:
 - Marine Safety Response Corporation (MSRC), 3300 E Spring St, Long Beach, CA
 - Tomorrow the ICP will be relocated to 111 West Ocean Blvd, Suite 1240, Long Beach, CA 90802

Cal OES Maritime Unit Updates

- Coordinating with the Port of Long Beach, US Navy, and USCG (Through the MTSRU) to establish open pier location with adequate depth to move contaminated cargo vessels in order to clean their hulls
 - The plan is to move the vessels, one at a time approximately 2x days before their actual scheduled unload date
 - The vessel will then move directly from the decom pier to its proper terminal for normal offload
 - This should minimize any delays to the already backlogged terminals

Pipeline P00547 Incident 10.02.21 (Continued)

Cal OES Fire & Rescue Branch

- Underwater pipeline assessment commenced this morning
- Director and other staff visited the incident and conducted an aerial survey
- Shoreline oil impact zone extends from Huntington Beach Pier southeast to Newport Pier.
- Oil slick visible to infrared sensor shows the slick extends 15 miles south in open ocean.
- The oil spill reported to be approximately 13-15 square miles in size, 3 miles off the coast of Newport Beach.
- New perimeter shows 13,181 acres of area that IR sensor shows on the ocean surface.
- The Coast Guard and Huntington Beach Police Department have dispatched aircraft to access the situation.
- The unified command consists of Beta Offshore, the Coast Guard, California Department of Fish and Wildlife's Office of Spill Prevention and Response (CDFW-OSPR). Supporting agencies are the cities of Long Beach, Newport Beach, Huntington Beach, and the Orange County Sheriff's Department.
- Supporting agencies are the cities of Long Beach, Newport Beach, Huntington Beach, and the Orange County Sheriff's Department.
- Members of the public are asked to avoid any oiled areas.

Operations update, as of 10/03/21, 0830 hours:

- Incident is in Unified Command with USCG, CDFW/OSPR, Beta Offshore Cooperation
- Incident is still working under a 201
 - An Incident Action Plan (IAP) will be published tomorrow morning, 10/04/21
 - Incident will also start publishing 209s tonight or tomorrow
- 2x overflights have been conducted today, 10/03/21, – 1x FIRIS at 0430 and 1x Incident helicopter overflight at 0730
 - Currently waiting on results of 0730 overflight
- 3 Task Forces established with multiple vessels towing boom to begin to establishing containment

SITUATION SUMMARY

Cal OES SOUTHERN REGION (Continued)

Pipeline P00547 Incident 10.02.21 (Continued)

State Parks

- The California State Parks is anticipating impacts from the Pacific Ocean oil spill to several different Southern California beaches.
- State Parks is monitoring the stance of the Public Health Department and is anticipating an order from the Public Health Department addressing any threats to public health because of the oil spill.
- State Parks prepared to act in accordance with any public health orders issued.
- State Parks are anticipating a closure of water recreation while keeping the beaches open, however, said closures have not been declared yet as they are awaiting recommendations from the Public Health Department.
- It appears the shoreline impact zone will extend from Huntington Beach Pier SE along the shoreline to Newport Pier.
- The Department has closed the water for recreational purposes at Huntington State Beach.
 - The parking lots have also been closed to the public but will remain open to responding agencies.

Fish and Wildlife

- A pipeline release occurred at Platform Elly which sits about 10 miles offshore.
- About 4.5 miles offshore “something gave” and released oil.
- California Department of Fish and Wildlife analyzing trajectories and they expect oil to hit landfall in the next 6 hours between Newport and Laguna Beaches.
- Although CDFW heard oil has reached the shoreline CDFW indicates they have not confirmed it and it is too dark to see currently. California Department of Fish and Wildlife did confirm vessels have been coated with oil.

OSPR

- At 2222 hours on 10/1/21, the Office of Spill Prevention and Response (OSPR) received notification of an observed sheen in federal waters several miles off the coast of Huntington Beach.
 - The source and volume are unknown currently. Additional reports have followed through the morning of 10/2/21.
- OSPR's Field Response Team has mobilized to the scene to manage the incident in coordination with other responding agencies.
- OSPR is also standing up a Liaison and Public Information Officer to manage media, agency, and stakeholder concerns.
- The Oiled Wildlife Care Network has been notified and OSPR is consulting with the Office of Environmental Health Hazard Assessment to determine if a fishery closure is warranted.
- Anyone observing oiled wildlife should not attempt to capture it, instead, please report any observations of oiled wildlife to OWCN at 1-877-UCD-OWCN (1-800-823-6926).

California Department of Public Health

- CDPH has contacted Environmental & Occupational Health Branch (E&O) and have made them aware of the situation.
- CDPH will continue to monitor the situation and advise CalOES if the situation changes.

WEATHER KEY POINTS

10/03/21 - 10/09/21

Sunday-Saturday

- Localized elevated fire weather conditions will be noted again across the southern California foothills and mountains Sunday, with additional elevated to locally critical fire weather concerns expected Monday and Tuesday across much of northeastern California
- Dry and mild weather expected through Monday for most areas, with some scattered showers and thunderstorms developing across southern California later Monday through Tuesday evening
 - Mainly light rainfall amounts are expected, generally less than one-quarter of an inch, with no widespread impacts from the rain anticipated
- A passing cold front will bring much cooler temperatures statewide for mid and late week, persisting into next weekend as well, with some showers also possible at times. Confidence in the timing and coverage of showers remains low but fire weather conditions are expected to decrease statewide with a return to much cooler temperatures and higher humidity levels by late in the week and into next weekend.
